THE WORLD'S FAIR

The first of the great exposition founains to be completed at St. Louis is the 'Spirit of the Atlantic Ocean' by Isiat the top of the West Cascade on Art

Reports which have reached the Eastern Press Bureau from State Exhibits show that Kentucky's display at the exposition is to be on a scale second to none in its general character.

Radium, the luminous element worth

700,000 pound sterling per pound, is to have prominent space at the exposition probably through a concession to Alexander Forbes, of Glasgow, Scotland.
The applicant for space to exhibit the wonderful illuminent says: "Rays shot from radium at the rate of 120,000 miles a second form a new record between matter and motion. The rays are one hundred times faster than the fastest meteor known. One grein of radium is calculated to continue in full activity for two million years, thus making perpetual motion a thing to be numbered among possibilities. Radium, without being energized in any way, gives out light, heat and motion.

"The nicest and pleasantest medicine I have used for indigestion and constipa-tion is Chamberlain's Stomach and Liver Tablets," says Melard F. Craig, of Middlegrove, N. Y. "They work like a charm and do not gripe or have any unpleasant effect." For sale by Richard Gibson.
